Dear Mr. Secretary General,

I am pleased to confirm that the City of Pula-Pola supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anticorruption.

With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact as Leader city:

1. We are committed to sustainable development and socially responsible business.
2. It was made an official Action Plan of socially responsible business of Pula and approved with a term of realization of two years.
3. Is in the process the introduction of the international standard ISO 26000
4. Is in the process the international standard certification IQNet SR-10.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,
